Workshop Norms

- Start on time, end of time
- Be **honest** and respectful
- We will not use "I think..." or "I like..."
- Focus on what we can do

Our Mission

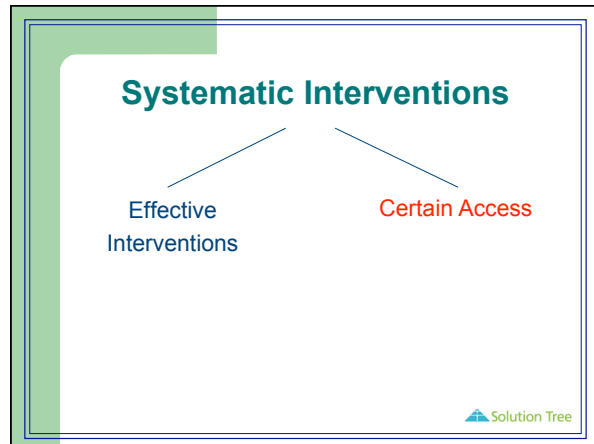

To assure high levels of
learning for all students!

How?

1. Focus on student learning
2. Create a collaborative culture
3. Clearly define what every student needs to learn.
4. Constantly measure our effectiveness.
5. **Systematically respond when students need additional time and support.**

How?

1. Focus on student learning
2. Create a collaborative culture
3. Clearly define what every student needs to learn.
4. Constantly measure our effectiveness.
5. Systematically respond when students need additional time and support.

How?

1. Focus on student learning

Fundamental Assumption

To have a mission of learning for all

- You must believe all students can learn at high levels.
- You must take responsibility to ensure that all students learn.

How?

1. Focus on student learning
2. Create a collaborative culture

We would start by:

- Creating frequent, collaborative time during the professional work day.
- Creating teams that support each person's "day job".
- Creating & following team norms

How?

1. Focus on student learning
2. Create a collaborative culture
3. Clearly define what every student needs to learn.

1. Standard/Description	2. Example/Rigor	3. Prior Skills Needed	4. Common Assessment	5. When Taught?	6. Enrichment Standards

How?

1. Focus on student learning
2. Create a collaborative culture
3. Clearly define what every student needs to learn.
4. Constantly measure our effectiveness.

We would need to know

1. Which students did or did not master specific essential standards
2. Which instructional practices did or did not work

How?

1. Focus on student learning
2. Create a collaborative culture
3. Clearly define what every student needs to learn.
4. Constantly measure our effectiveness.
5. Systematically respond when students need additional time and support.
